"NB. "Resin Bevel" and "Triple Glazed" designs incorporate their own unique backing glass. (CRB Codes)

Etched glass designs incorporate clear backing glass. (ET Codes)

Virtuoso

doors by design

Introducing the Virtuoso Collection, individually created to help you choose the perfect door for your home.

With styles to suit every type of property, traditional or contemporary, our doors are constructed from the highest quality PVCu to keep them looking good for years with only the minimum of maintenance. Manufactured using the state of the art techniques and materials. They have outstanding acoustic and thermal qualities and the latest security features for complete peace of mind.

Each door in the Virtuoso collection is custom built with the glazing option of your choice.

A browse through the following pages will reveal the stunning combinations possible with our unrivaled collection of decorative, coloured, bevel, georgian bar, classic lead, sandblasted (etched) and resin bevel designs.

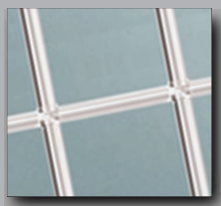
Lead & Film
This process incorporates self adhesive lead and colour film to replicate traditional stained glass designs, all external joints are soldered.

Glass Bevels
Incorporating hand crafted glass bevels which are applied to the glass and finished with lead work, external joints are soldered.

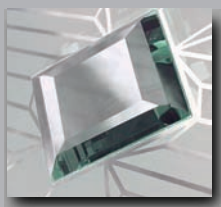
Etched Glass (Sandblasted)
Beautiful designs using the latest technology to reproduce what would have originally been manufactured using a sandblasting process.

'Resin Bevels'
Designs which are complex yet delicate, using the latest technology these unique designs cannot be reproduced by any other process.

Glazing Bar'
This process incorporates PVC or Aluminum bars encapsulated within the double glazed unit ensuring ease of cleaning.



'Tiles'
These designs incorporate either kiln fused glass tiles or sparkling clear bevels on a sandblasted effect base glass.



Triple Glazed
The beautifully hand assembled and soldered panes have the benefit of triple glazing preventing oxidization or discoloring of the lead. The easy to clean units also provide superior heat and sound insulation.

Each door panel carries its own "U values" for further information please see our Technical information details.

Lead Finishes
Standard Lead *:- Soldered external face only.*
Antique Lead *:- Soldered external face only.*
Antique Lead *available on request.*

Full design and reproduction service available, prices on request. *N.B. GGF guidelines apply.*

Due to the nature of our products and the limitations of the printing process, no liability can be accepted for the accuracy of the colours or designs depicted, which are intended for guidance only.

Lead is a natural product which when exposed to the environment will undergo certain atmospheric transformations. This is perfectly natural and will eventually settle down to take on a natural weathered lead appearance.
